Milestone Medical Announces Three Additional Independent Distributors in the U.S. for CompuFlo® Epidural System

Agreements cover territories within the Pacific Northwest, Southeast and Midwest

Reports growing interest following successful showing at The SOAP 50th Annual Meeting

LIVINGSTON, NJ, May 21, 2018 -- Milestone Medical Inc. (WAR:MMD) today announced it has signed agreements with three additional independent distributors for its CompuFlo® Epidural System covering territories within the Pacific Northwest, Southeast and additional coverage in the Midwest. The company also reported on interest generated in the CompuFlo® Epidural System at The Society for Obstetric Anesthesia and Perinatology (SOAP) 50th Annual Meeting that was held in Miami from May 9-13.

Leonard Osser, Interim Chief Executive Officer of Milestone Medical, commented, "We are encouraged by the growing interest in the CompuFlo® Epidural System, as evidenced by the addition of these three latest independent distributors, which provide us coverage in the Pacific Northwest and Southeast, as well as deeper penetration within the Midwest. In addition to these distributors, we are in active discussions with many others nationwide. This recent success reflects our new decentralized sales strategy, whereby we are targeting independent distributors with existing physician and hospital relationships within their respective territories and clinical specialties. We were also pleased with the favorable response the CompuFlo® Epidural System generated at the SOAP meeting. We look forward to following up with the anesthesia providers we met that desire a tool that objectively identifies the epidural space and aides in discriminating between true and false loss of resistance."

About Milestone Medical Inc.

Milestone Medical, Inc. has developed epidural and intra-articular drug delivery systems based on a patented, painless, computer-controlled injection and drug delivery technology originally developed by Milestone Scientific, Inc. Development of both the epidural and intra-articular instruments is now complete. The Company was granted the FDA marketing clearance of the epidural instrument in U.S. and is currently pursuing regulatory approval for intra-articular instrument in the U.S. Milestone Medical received CE Mark approval to sell and market its intra-articular and epidural instruments across European Union. For more information please visit www.medicalmilestone.com.

About Milestone Scientific Inc.

Milestone Scientific Inc. (MLSS) is a biomedical technology research and development company that patents, designs, develops and commercializes innovative diagnostic and therapeutic injection technologies and instruments for medical, dental, cosmetic and veterinary applications. Milestone's computer-controlled systems are designed to make injections precise, efficient, and virtually painless. Milestone's proprietary *DPS* Dynamic Pressure Sensing technology® is our technology platform that advances the development of next-generation devices, regulating flow rate and monitoring pressure from the tip of the needle, through platform extensions for local anesthesia for subcutaneous drug delivery, with specific applications for cosmetic botulinum toxin injections, epidural space identification in regional anesthesia procedures and intra-articular joint injections. Safe Harbor Statement

This press release contains forward-looking statements regarding the timing and financial impact of Milestone's ability to implement its business plan, expected revenues, timing of regulatory approvals and future success. These statements involve a number of risks and uncertainties and are based on assumptions involving judgments with respect to future economic, competitive and market conditions, future business decisions and regulatory developments, all of which are difficult or impossible to predict accurately and many of which are beyond Milestone's control. Some of the important factors that could cause actual results to differ materially from those indicated by the forward-looking statements are general economic conditions, failure to achieve expected revenue growth, changes in our operating expenses, adverse patent rulings, FDA or legal developments, competitive pressures, changes in customer and market requirements and standards, and the risk factors detailed from time to time in Milestone's periodic filings with the Securities and Exchange Commission, including without limitation, Milestone's Annual Report for the year ended December 31, 2017. The forward looking statements in this press release are based upon management's reasonable belief as of the date hereof. Milestone undertakes no obligation to revise or update publicly any forward-looking statements for any reason.
