## **Milestone Medical Inc. Reports Continued Progress on Commercial Rollout of CompuFlo Epidural System and CathCheck™ System**

**Roseland, NJ, April 1, 2021 – Milestone Medical Inc. (WAR: MMD)** today provided the update on the commercial rollout of CompuFlo Epidural System and CathCheck™ System.

Leonard Osser, Interim Chief Executive Officer of Milestone Medical Inc., further noted, stated, "We have made significant progress over the past year advancing our commercial efforts around the CompuFlo® Epidural Instrument and CathCheck™ System. Specifically, we have added new distributors and begun to penetrate key hospitals with our CompuFlo® Epidural Instrument and we expect this trend to continue as we anticipate adding additional hospitals in 2021. A key element of our sales strategy focuses on the disposable components of our system, which we believe will contribute to high margins and recurring revenue. We're also expanding our medical sales force, and now that new protocols are in place at hospitals, we are better able to enter the hospitals and have commenced a number of new pilot programs. Overall, the response from both hospitals and physicians has been positive and we are in a number of trials across the country that have the potential to convert to additional commercial orders this year."

"Given a strong cash runway of our parent, we believe we are well funded to accelerate the sales and marketing activities around the medical instruments. The strength of balance sheet of our parent should provide us the substantial runway to advance the development and commercialization of other indications for our proprietary DPS Dynamic Pressure Sensing Technology. We believe this technology platform is quite broad with multiple indications in large and underserved markets."

### ***About Milestone Medical Inc.***

Milestone Medical, Inc. (WAR:MMD) has developed epidural and intra-articular drug delivery systems based on a patented, painless, computer-controlled injection and drug delivery technology originally developed by Milestone Scientific, Inc. Development of both the epidural and intra-articular instruments is now complete. The Company was granted the FDA marketing clearance of the epidural instrument in U.S. and is currently pursuing regulatory approval for intra-articular instrument in the U.S. Milestone Medical received CE Mark approval to sell and market its intra-articular and epidural instruments across European Union. For more information please visit [www.medicalmilestone.com](http://www.medicalmilestone.com).

### ***About Milestone Scientific Inc.***

Milestone Scientific Inc. (NYSE:MLSS) is a biomedical technology research and development company that patents, designs and develops innovative diagnostic and therapeutic injection technologies and instruments for medical, dental, cosmetic and veterinary applications. Milestone's computer-controlled systems are designed to make injections precise, efficient, and virtually painless. Milestone's proprietary DPS Dynamic Pressure Sensing technology® is our technology platform that advances the development of next-generation devices, regulating flow rate and monitoring pressure from the tip of the needle, through platform extensions for local anesthesia for subcutaneous drug delivery, with specific applications for cosmetic botulinum toxin injections, epidural space identification in regional anesthesia procedures and intra-articular joint injections. ## **Safe Harbor Statement**

*This press release contains forward-looking statements regarding the timing and financial impact of Milestone's ability to implement its business plan, expected revenues, timing of regulatory approvals and future success. These statements involve a number of risks and uncertainties and are based on assumptions involving judgments with respect to future economic, competitive and market conditions, future business decisions and regulatory developments, all of which are difficult or impossible to predict accurately and many of which are beyond Milestone's control. Some of the important factors that could cause actual results to differ materially from those indicated by the forward-looking statements are general economic conditions, failure to achieve expected revenue growth, changes in our operating expenses, adverse patent rulings, FDA or legal developments, competitive pressures, changes in customer and market requirements and standards, and the risk factors detailed from time to time in Milestone's periodic filings with the Securities and Exchange Commission, including without limitation, Milestone's Annual Report for the year ended December 31, 2020. The forward-looking statements in this press release are based upon management's reasonable belief as of the date hereof. Milestone undertakes no obligation to revise or update publicly any forward-looking statements for any reason.*
